

Judy's Country Kitchen

It's full of country charm
A small quaint little spot
Where good food is abundant
And the coffee is always hot

Judy will greet you with a smile
Maybe a joke, just to share a laugh
The friendly, warm feeling is everywhere
It's contagious with each of her staff

You come to Judy's for comfort food
But you'll find so much more
Folk's in their golden years
Feel right at home inside this door

Judy has a special gift
Though she would never admit
She makes folks feel good inside
When they come here to sit

You won't find expensive wine
Nor does money play a part
Just good and genuine folks
Giving from the heart

Judy's Country Kitchen

The chickens stand in silence
The Sheep and cows look
Straight ahead
The people start streamin in
Lookin like they just got out of bed

Christy's in the kitchen
Mixing up the morning eggs
Givin hell to everyone
Teasin, pullin peoples' legs

The waitress' are warming up
Giving guff to all who came
Kendra is the youngest
Nicole and Linda are the same

Then she makes her entrance
The queen bee of the lot
Not a mean bone in her body
But acting like a snot

It's Judy someone says
As she floats across the room
Stopping here, talking there
She'd make a blind man swoon

It's early morning breakfast
Judy's Country Kitchen is the place
Farmers, salesman, welders and oldsters
They are at their favorite place

An omelet here over easy there
Pancakes toast and ham
Coffee for the wake me up
No baloney or canned spam

Sausage gravy and biscuits
With merriment thrown in
What a meal to start the day off
A way to help you win

So count me in the next time
I'll meet you there at eight
Can't wait to see the goin's on
Judy's? I just cant wait
